I am writing to express my strong interest in the internship (LIA) position at Volvo Cars, which was shared by the graduate from the same major. As a highly motivated and results-driven individual, I believe that my attention to detail and ability to work well under pressure makes me a strong candidate for this position.

Currently, I am enrolled in the “International Business Logistics – Green Management” at Hermods, where my interest in the field has grown substantially. This interest has been fuelled not only by my multilingual skills but also by my desire to comprehend how logistics intertwines and influences our lives. For instance, the dynamics of logistics throughout the recent pandemic years, including how it adapted and restructured, its economic implications and contributions, as well as the challenges it presented to various sectors and industries.

I am looking for a company that provides a global work environment where I can leverage my language and communication strengths to the fullest. If I am chosen as an intern at Volvo Cars, with my quick learning ability and a computer science background, I am confident that I can quickly integrate into your team and I will work hard towards the objectives and goals of your team.

Thank you for considering my application. I am eager to join Volvo Cars and contribute to your continued success in logistics. I look forward to the opportunity to discuss my qualifications with you in person.

Sincerely,
Xingrong Zong
